

Overview

We are a CLIA and FDA accredited diagnostic laboratory, reimagining clinical testing for providers and patients. Offering a full-stack API connected orders and results solution for traditional brick-and-mortar medical practices, enterprise, and the telehealth partners. From patients' direct orders, all the way to a white-labeled plug and play test solution our dynamic platform securely transmits care across an omnichannel to meet your patient anywhere. Empowering every person with access to accurate and actionable clinical testing when and where it matters most.

Scope of Services

- Full-service FDA/CLIA certified laboratory providing over 300 tests for FDA/IVF, Molecular, Immigration, Clinical, and more.
- Extensive billing capabilities - In-Network with Aetna, Anthem Blue Cross, Blue Shield of California, United Healthcare, Progyny Fertility Insurance and Cigna
- Patient Service Centers (PSCs) across California.
- Courier network available for same-day service (geographic bounds)
- Complimentary coordination of domestic and international remote draws for all IHD-offered panels
- EMR Interfacing capabilities with traditional and specialized EMRS from Athena, Office Alley to eIVF, Meditab, and nAble.
- DasS (Diagnostics as a Service) white labeling for at-home test kitting of 85+ assays for Digital Health Partners.
- DTC Services available increasing patient compliance and diagnostic information for treatment plans and follow-up encounters for telehealth providers.
